

Tell Me More....

- **Degreed is...**
 - Designed to empower learners to find the learning they need to grow every day
 - A unified point of access for all learning content in the organization: internal systems, external providers, and an open ecosystem of online content.
 - A personalized learning experience for every learner.
 - A set of social and collaboration features, including curation tools used to design and develop Pathways and Plans.
 - Available on any device.
- **Degreed is not...**
 - A Learning Management System (LMS). Degreed offers integrations with LMS content to provide one central discovery center for all content, both formal and informal.
 - A hosting solution - Degreed can integrate with third-party solutions such as Google Drive, SharePoint or an external content providers.
